

## **Why We Are Here.**

We are here today to implement the vision of our Alumni Association along with our president, John Fitzpatrick and all those present today who have a passion for service and for cultivating our youth.

This vision entails being role models and mentors for our young boys and girls and helping them to build their future. As adults, we understand what it takes to be successful and we understand the impact we can have on the next generation. This is an opportunity to leave an impact for life!

Today we embark on this journey of service. We will serve our young boys and girls in a manner that will leave a lasting impression within our community and encourage others to become active within their own communities as well. We will serve our young boys and girls in a manner that will make our founders proud!!
